THE ENERGIES OF NAVROZ 2014

THE ENERGIES OF 2017

Greetings!

We ask you to help the B. and the N. to continue on their journey smoothly. (*Note: the names of these two friends had been mentioned prior to the meeting. They had recently passed over*). They are both in the spirit realm, but are slightly disoriented and are, as yet, unaccepting of their newfound situation. Though they are both surrounded by Master, Guides and loved ones; they are still disbelieving and resistant. Please spend a few moments in silence, offering them pure golden light. (Pause)

Now offer them the energy of clarity; so that they can see, acknowledge and accept that which is around them. (Pause)

Now please bathe them in aqua blue-green light, upon which they can ride. (Pause)

Thank you for your generous service.

Dear friends, ***we urge all of you, not just members of one community, to joyously use the upcoming few days to enjoy a newfound, strong connection with those in the spirit realm.*** The energies of this festival (Parsi New Year) are opening energetic doors for all to access, if they so choose.

Many loved ones, friends, relatives, ancestors and Masters are using these doorways to interact, on a more personal level, with the people of earth. But understand that the 'welcome' must come from you. If you do not 'open the door', you will not be consciously aware of this interaction.

These energetic doorways are going to be open for about a week. If you are sensitive and make a conscious effort, you will hear, see and feel the presence of many entities around you.

***Earth is currently a very popular Universal tourist spot.*** Some entities come to personally interact with you; but many others, such as Universal beings, are also going to be taking advantage of this high energy field to visit Earth in the now.

*How does this energy field help these Universal beings?*

Many who have been desirous of visiting earth, but have been unable to do so in the past, due to the dense energies of Earth, will use this high-frequency window to do so.

***Please be open to all these friends and visitors.*** None will be invasive or threatening. They will either be here to meet and connect with you, or to explore Earth herself. They will come out of love. Some will be personal visitors, but many will be here as Universal explorers.

Open to the new energetic vibrations that have already begun to surround the planet. These will feel charged, exciting, vibrant and refined.

Now, should you choose to connect with anyone in the Spirit realm, be it a loved one or a Grand Master, invite them to visit you and experience their vibrations at a new and rarified level.

If you are open (particularly at night when the surrounding Earth energies are calmer than usual) you may hear strange noises in your room and see or feel presences around you. We are deliberately alerting you to this, so that you don't seize up with fear. Fear will 'slam the energy doors shut'. Choose, instead, to be open and welcoming.

***This is also an ideal time to call upon those who have passed over, and work out unresolved issues with them.*** This is also a time during which, if you wish to do the same with a living person, you can invite his higher soul to be with you. Use the opportunity: it is for all on Planet Earth.

We remind you that the energetic thrust of this community is 'to help you be the best you can be, at whatever you choose'. This process only furthers that statement. Through communication and resolution, you are taking your energies to a new level of personal expansion.

These energetic doorways naturally work both ways. They will also help you magnify love and healing that you may choose to send out to a person, a group, a country or a world event. Your thoughts and intent will be magnified. But please remember that the same goes for any anger or hatred that you might also generate.

Now, you are aware that there is already so much anger and hatred being generated on Earth. We urge you, as lightworkers, to counteract this with thoughts of love, peace, harmony, healing and nurture. Send these energies out! Heal your planet.

*Why have these doorways opened now?*

This has happened for several reasons. First of all, your community has asked for this energetic thrust, for the good of Planet Earth, during this time period. This bears further explanation.

Whenever any community festival is approaching, the higher consciousness of that community asks the Universe for a particular gift it desires, for the good of Planet Earth. The request is always granted.

Secondly, these doorways are opening right now because Planet Earth has begun to emit new frequencies from her core center. She has energetically leapt forward. And due to this, millions of energy vortexes are being created, which we are terming 'doorways'.

Thirdly, Planet Earth is at such an interesting point in her evolution that she is 'under scrutiny' by many advanced Universal beings. Beings interested in growth, evolution, wisdom and knowledge.

*Haven't our Universal Friends been working for the upliftment of Planet Earth for a long time now?*

Most definitely, dear friend. But their interest and curiosity has been piqued during this energetic period. And many other new visitors are also coming for a visit during this time period. Earth has become the 'hot' Universal tourist destination.

The current energies being released, and drawn to, Planet Earth are a magnificent cosmic experiment. Even She does not know how exactly they are going to affect her inhabitants and her own structure.

*You said that this particular community has asked for this: does this only refer to people born Parsis, or does it also include those who are working towards 'being the best they can be'?*

Yes, you are correct. From a spirit perspective, there is no segregation. For example, the Love energy is anchored on earth through the Christian community. But anyone who desires to work with love is automatically embraced by the energy field of the Christ Office. It may interest you to know that most lightworkers are energetically allied with over 200 earth religions, as well as several Universal ones.

*Do speak to us of our evolution over the next few years!*

Dear friend, we can only give you projections, not certainties, as this will depend on your rate of growth and awakening. However, Earth is going to receive a huge energetic thrust during 2017. This has been pre-planned.

You are aware of the intensity and the effect that solar flares have on Earth right now. This energetic thrust is going to be a magnification of these solar flares, to an indescribable degree. Let us term this a Universal Flare.

This will affect the energetic structures of Planet Earth and all her kingdoms, literally blowing them apart, offering all of you the opportunity to upgrade to a much higher frequency.

How you deal with this, when the time comes, will determine your next step of collective evolution. Will overall consciousness rise dramatically, or will it contract in fear?

***During the year 2017, all your concepts, beliefs and structures (including those you are working towards upgrading right now) will be blown apart.*** You will have nothing to hold onto. You will be forced to re-create new ones from scratch. That is when you will begin to discover who you really are. And this 'new you' will truly be your own creation, with your own power.

At that time, there will be mass exits from Planet Earth. Some will be individual, and others will be in groups. But those who cannot re-create the self on Earth will choose to instead exit, and do this work from a rarified aspect of the higher self. This time period is to be applauded, not feared.

*Will these mass exits happen due to natural disasters?*

They will take place in many ways. Yes, there will be many earth shifts through which some will exit; but for the most part, the exits will be individual, and the choice to exit will be made 'on the spur of the moment'.

***Post 2017, you will experience 'the golden age of the lightworker'.*** Those who choose to remain will have to know, to a certain extent, who they really are. They will desire to look towards the future; and change and adapt with the times. Many will then really begin to enjoy the quest for inner wisdom and knowledge. People will finally be ready to accept the presence of Universal friends.

Let us give you another tip to use during this wonderful energetic period. You now know that doorways are opening, and energies are both magnified and rarified.

Use this current energetic time period to energize your own physical bodies, rid yourselves of diseases, upgrade the inner structure, enhance the self physically, mentally, emotionally and spiritually, and to most definitely work for your environment.

If you choose, during this energetic period, to work for your home, family, city and country; you can really make a difference. Do not underestimate the magnification of this period.

***We also suggest that, during the next five days, you do not choose to visit spaces of deep pain and depression.*** Even if you are currently exploring such spaces in therapy, simply suspend the work for this brief period, and then resume it after five days.

If you allow yourself to go here, you could magnify it to such a degree that it would be detrimental to the self. Of course we are not asking you to give up daily life. Even if you are a person working around pain, such as in a Cancer hospital, of course continue as usual. But do not make the patients' pain yours. Work in fullness and love.

In general, do not allow the self to get trapped in despair, or wallow in your own suffering. Find a way, any way, to be open and positive. Then you will magnify that.

As lightworkers, help others too. If you encounter someone who is doing this, find a way to divert their focus from pain to any other productive energy. Cheer them up. Help them find a light at the end of the tunnel.

Many who are currently in deep depression may choose, at the end of this five-day period, to exit. So be it.

Blessings.

A group of Angels are present here today. Some of us you already know; but many are visiting Angels from other realms and dimensions. We collectively refer to ourselves as **THE SERAPHIM**.
