## NEW CELESTIAL COMMITTEES FOR THE UPLIFTMENT OF EARTH

There is a golden fountain of light that has been energetically created in this room. Kindly place yourselves, and all the names just listed for healing, in this structure and receive its power, healing, magnificence, cleansing and expansive vibrations. (Pause)

Deem yourselves worthy! Most are taking in less than 30% of these magnificent healing energies. Open up your structures and receive the light. (Pause)

Blessings!

(Sohrab shifts energies)

Greetings!

A series of *celestial committees* are being formed as we speak, to help facilitate Planet Earths move into the 5<sup>th</sup> dimension, with particular reference to the energies of this year...Feminine Empowerment.

Each celestial committee comprises of a group of beings. Some have had earth experience, by having taken incarnations on this planet several times over. Others are Universal friends who simply desire to help and aid the committees, and Planet Earth, with their very potent frequencies.

These committees come under general headings. One deals with world politics, another is attempting to help streamline world finance, and yet another deals with the upgrade of technology. There is a specific committee attempting to serve the medical community, and to help it make breakthroughs in finding new cures for diseases. These are but a few examples.

These beautiful committees will be working worldwide with all those under their purview. The political committee, for example, will be working with all humans

involved with politics and will attempt to create an energetic synergy between them, so that they begin to understand the needs of the collective, and start working towards world unity.

These committees have to work very carefully, as they are not permitted to violate the free-will choices of those on earth. In the case of a tyrant dictator or a greedy politician, they will work to influence him to work for and with the light; but they are not permitted to ‘wave a wand’ and change his free-will course.

How they will work is this: they will attempt to fine-tune the connection between this politician and his own higher soul, so that he feels urged to follow his own guidance in a more focused manner. At the same time, they will offer the politician’s consciousness guidance, support, higher wisdom, awareness and assistance; urging him to work for the light and for the people that he is serving.

***We would now like to invite all Lightworkers to consciously choose to be a member of one or more of these committees.***

To do so, you simply connect with your own higher soul, make your choices, and allow the frequencies of those committees to merge with you. You will then get a sense of being a part of a celestial ‘round-table conference’.

You have the right to express your opinion and state your intent. You must then also open to downloads that are given to you by the committee, guiding you as to what to do as an active earthly participant.

Now, you will naturally choose committees that have meaning to you. (Pointing to G) Yes, dear friend, there are specific committees working for Earth’s collective consciousness. One with the human collective consciousness, one with the animal collective, and so on.

There is also an ‘umbrella committee’ working for the overall upliftment of the Planet and her inhabitants. We ask you to choose to join that as well; your input will be vital to it.

Dear friends, do not sit back and wonder, “How will my individual contribution be of help?” It will.

Once you have made the intent to be a part of any committee, you will then instantly be infused with a portion of that frequency within your structure.

These frequencies will then automatically urge you to spread energies and awareness in that area on Earth. You will find yourselves speaking to others about this aspect, or enlightening them, or awakening them, or doing something physical and practical to help in that area.

Do not hold back in fear, saying “I am not a public activist by nature”. A lot the work will be energetic, which is as vital as another who has a public mission. You will find yourself working in the manner most suited to your structure and personality. There will be no coercion to do something that makes you uncomfortable.

If you choose to undertake this work, you will also benefit tremendously. You will find you gain heightened awareness in that area. If you choose, for example, to join a committee dealing with streamlining worldwide business, you will find yourself more in sync with your own business. You will find that you can generate more business for the self, receive more abundance in that area, work with the system better, and make the necessary adjustments to upgrade your enterprise, and so on.

*How many committees are there?*

Millions! You think it, and it has been formed. Each committee has numerous sub-committees. The overall committee for technology has innumerable sub-committees, each dealing with a different aspect of technology. An astrophysicist may join a sub-committee that deals with that aspect of technology, and a motor-bike enthusiast may choose to join a committee that deals specifically with this instead.

***Friends, please do not pass up this opportunity to serve humanity and to serve the self.***

You will notice, from now onwards, that during these meetings you will be urged to participate more and more, instead of just sitting back and listening to the words of the Masters. You must now play an active role in the transformation of your

planet from the 3<sup>rd</sup> to the 5<sup>th</sup> dimension. Your energies are now so high and so adept that you must be co-creators of your own future.

A person who is comfortable with meditation may find his committee work being done mainly in the meditative state. Another person, who is action-oriented, will do his work this way. We assure you that it will suit your structure.

Be our spokespersons. Hold these energies, benefit the self, and benefit Planet Earth in her magnificent transformation.

*I am still confused about the headings of the various committees.*

We assure you that if you can imagine it, it exists. If you are an athlete interested in a particular sport, choose to join that particular committee. Help spread, refine and uplift the energies of that particular sport on Planet Earth.

If you enjoy reading, join a 'celestial book-club' that deals specifically with topics that interest you. You will then find yourself being drawn to new and exciting literature on Earth, and sharing your own knowledge in that subject with others, urging them to explore it further.

If you find yourself concerned about the environment, with particular reference to your own city or neighborhood, choose to join a committee which deals with that in particular.

***Dear friends, some of these committees and sub-committees have already been Universally formed; yet others may be formed by your specific desires. So if you envisage a committee that has not already been formed, your thoughts and frequencies will instantly gather together a group of souls who instantly form this committee, and aid you in this project. You then become the founding member.***

Be as specific as you like. Many in this room are healers. So yes, join a celestial committee of healers. Then join sub-committees that deal with all your specific branches of healing. Then also join sub-committees that deal with your branches of healing, with particular reference to your country or city. Make your choices as detailed as you desire.

*Won't this get too much for us, and dissipate our focus and energies?*

No. You can never join 'too many committees'. Go beyond your three-dimensional concepts of 'how much you can handle at a time'. The only thing that will limit you is your belief system. If you believe you can; you can.

*Will our thoughts and actions be supervised by the committee?*

We cannot impose our thoughts or desires upon you, but we will offer you 'energetic fertilizer'. This will urge you forward and will encourage you to think 'out of the box'. It will help you gain confidence in your power and your abilities. But the choice to use this 'energetic fertilizer', or not, will still be yours.

From time to time, with the permission of your higher soul, a thought or an urge will deliberately be instilled in you. This will push you forward in an enthusiastic, dedicated and focused manner.

Let us take the example of a scientist who has dedicated his life to finding a cure for a certain disease. Let us also assume that he has always worked, not for greed or fame, but for the joy of the discovery itself and its worldwide benefits. He will be given further implants, to spur him on to discover the cure this year.

Yes, dear friends, ***during this year of Feminine Empowerment, there will be major breakthroughs in the area of science, technology and medicine. Cures for major diseases will be discovered. Cutting-edge technology will arise. Communication with Universal Friends will be facilitated. All of this may not be made available to the general public during 2015, but it will be created and established.***

*In the case of a committee dealing with Art, would the higher-soul energies of all the great Earthly artists like Michelangelo and Van Gogh automatically be a part of it?*

This committee would be comprised of many earth artists, both in physical and spirit form; Universal beings who work with the energies of art in an abstract form; and others in the spirit world who desire to add their energies to this committee, to facilitate the upliftment of this aspect on Planet Earth.

Now, not every single artist who has passed over will choose to become a part of this committee, but many will. There is a reason for this.

An artist who has been on planet earth will have evolved a certain style. After passing into spirit, he will have grown and evolved even faster. He may choose to add his new frequencies to this particular committee, to facilitate new artistic breakthroughs on planet Earth. An example of this? Old Renaissance painters, after spirit evolution, facilitated the advent of pointillism and cubism in the Art world.

Others, however, may choose instead to add their new artistic abilities to other committees, such as one dealing with modern engineering. This, too, needs tremendous artistic creativity. The choice will be theirs.

*Should we ask the appropriate committees to invite us to join them?*

Membership to any committee is dependent on your self-worth, and your certainty that you will be a valid and beneficial member of the group. So there will be no external invitation; you must choose and co-opt the self into the committee.

Dear friends, you may join any committee of your choosing. You will be welcomed. No one is too insignificant, unskilled or unworthy.

You may even choose to daringly join a committee involved in a skill or area in which you have no official knowledge in this incarnation. You must remember that in some existence, you are a master of that art. Why not challenge the self and join a high-level mathematical committee? (Laughter)

*Can a person choose to join a committee that has a negative intent?*

No, dear friend, this structure is only based on the light. Similarly, even if a person joined a political committee and attempted to use its frequencies for greed and personal gain, the energy connect simply would not happen. These committees are purely those that enlighten.

*Could you please take us through an exercise to help us better understand how to join a committee?*

Yes. Take a moment and choose any one committee that you would like to be a part of. Identify only one for this exercise. (Pause)

Now mentally inform the committee that you like to be co-opted. Declare that you are worthy and perfect for this union. Use any words that come to you. (Pause)

Now open the crown chakra, and allow these energies to flow into the body. Feel or experience an energy flow. Let it fill the physical body. (Pause)

Now let these energies flow into your extended energetic structure, filling it as well. (Pause)

Now visualize the committee energies in the Universe. Let the delegates introduce themselves to you. Some may be recognizable energies and entities; others may not. Greet them, and allow them to welcome you. (Pause)

Commit to being a joyous, active committee member on Planet Earth. (Pause)

Commit to joyously receiving, now and in the future, the appropriate downloads from the committee, to benefit the self, Planet Earth and all her inhabitants. (Pause)

And it is done. It is as simple as this.

Friends, your Masters and guides are all members of these committees. Many are a part of numerous ones. In all likelihood, if you are motivated to join several, and experience the same Master energies repeatedly, do not think you have ‘made a mistake’. It would be so.

Once you are a member, you have the divine right to use the committee energies at will, for the benefit of the self and all others.

Be open to downloads. They will come. Some will feel channeled. Others will come as thoughts and impressions. Some may come as strong inner urges. Do not ignore these thoughts, feelings and urges. Act on them. Share with others your knowledge, wisdom and expertise.

Some of these committees deal exclusively with abstract concepts. Enjoy them as well. For example, there are committees that deal with self-confidence, or to heighten intelligence, or to overcome judgment, or to help instill self-acknowledgment. Use them as well.

**YOU ARE IN THE FREQUENCIES OF 101 MASTER ENERGIES TODAY.**  
The spokesperson is **THE MEHER BABA. BLESSINGS.**

(Meher Baba continues to speak)

So many ‘fans’ in the room today! (Indicating a newcomer) Come on! Get up and give me a hug. (She does so) Yes, you were brought here today. Don’t doubt the self!

(Now addressing the group) Come on, open up your eyes and see me in his face and in his body! You can do it! (Pause)

(Meher Baba now blesses the entire group, section by section, and the meeting ends.)
