EXITS DURING 2018

EARTH'S RAPID MOVEMENT TOWARDS THE 5<sup>TH</sup> DIMENSION

EARTH'S NEW FREQUENCIES

THE NEW POWER OF WORLDWIDE LIGHTWORKERS

Greetings!

Several Master energies wish to address you today. Let us begin by answering your question. *(Prior to the meeting, P. had stated that several months ago, the Masters had said that there would be a spate of exits upto April 2018. She wanted to know if this still held good, or whether the period had been extended.)*

Yes, there will be a many exits this entire year. Many will avail of the opportunity to exit and experience the energies of several energetic vortexes that currently surround Planet Earth. These vortexes will offer those who use them the opportunity to catapult forward in their spiritual evolution.

Those who choose this route will, from the point of leaving the Planet to entering the spirit realm, garner the experience and energetic expansion they would have otherwise gained in about 10 lifetimes. Yes: *that* quantum of wisdom, knowledge and awareness.

These vortexes were meant to move away from Earth around this time. However, they will now continue to remain here for several more months.

Now, do not assume that *everyone* who exits the Planet will choose to

use these vortexes; but many will. And some who might have chosen to exit a few years hence might choose to avail of their energies and go now, instead. We suggest that if you hear of anyone passing over this year, honour them for their choice instead of mourning their loss.

There will also be another spate of exits during the last few months of this year, for a slightly different reason. You know that this is the year of “Owning Your Mastery”. All of you are working towards being the fullest and best you can be, at whatever you choose.

However, there are a set of people on earth who stubbornly refuse to own their Mastery or touch their power; those with *abject victim personalities*. They are naturally being urged, by their own higher souls, to start to touch their power. However, if they refuse to do so, they will then be urged to exit the planet and start afresh. This is because there is no point in remaining on Planet Earth and continuing to play the extreme victim beyond 2018. It's not going 'to fit' with the energies of earth any longer.

Friends, we are speaking of *those who play the victim to the extreme*. All of you play the victim to differing degrees, and you will continue to work on it and grow. But there are those who are paralyzed by their victimhood. And if they cannot manage even the slightest shift before the last few months of the year, their own higher souls will urge them home, so that they can regroup and start afresh.

Once again, do not assume that everyone who exits during that time period is an abject victim. For many, it will just be the 'right time'.

*Can members of other kingdoms on Earth also choose to exit through these vortexes, or does this only apply to the human race?*

Species of all kingdoms may choose to exit through these vortexes. They, too, have the divine right to grow and evolve exponentially.

*You spoke of 'mass exoduses'. Did you mean groups of people in one area or just many people in general?*

A bit of both. In general, individual souls will make this choice. But there are also many groups that will do so. Some of these collectives are in physical proximity to each other; others are scattered but share the same mind-set and ideology.

For example, a group of religious fanatics or political bigots may choose to exit, due to the promptings of their individual higher souls. They may, at soul level, assess the selves and say, “*We are trapped in, and playing victim to, our rigid belief systems.* This is unlikely to change. Let us re-group in spirit and approach it from a more expansive perspective.”

Yes: victimhood includes bigots, fanatics and those who truly believe their way is the only way; along with those who have absolutely no sense of the self, those who continually play the blame-game and those who truly believe they are being incessantly tortured by a punishing God.

*Will organizations also be affected? Ones which need to change and upgrade their corporate ideology?*

Most certainly. This will include companies, political parties and fanatical groups of all kinds. A company that is going completely wayward may go bankrupt or simply collapse.

MAHA AVATAAR BABAJI BLESSES YOU.

***(Smiling) Expect to repeatedly hear from the Maha Avataar Babaji this year. He has been chosen as a guide by the higher energies of this group; and He will help educate you throughout 2018.*** Please know that He is now a grand Universal Master; one who works in conjunction with several Master energies to facilitate the spread of light and consciousness. He also upgrades and reconstructs Universal grids. Blessings!

(Sohrab shifts energies)

GREETINGS FROM THE ASHTAAR COMMAND.

Dear friends, you know that we have worked tirelessly for several decades to facilitate the movement of Planet Earth, and all her inhabitants, from the 3<sup>rd</sup> to the 5<sup>th</sup> dimension.

***We are joyous to announce that, no matter the chaos you observe around you, Planet Earth has now made a shift into a higher frequency; one very close to the 5<sup>th</sup> dimension.***

We give you, and others Lightworkers like you, the credit for this upgrade. Your dedication to the self, and to self-growth, is commendable. You have understood that the shift has to first happen from within. You have lead by example and facilitated this worldwide shift.

Planet Earth is now vibrating with a *brand new frequency*; one that has only been present for the last 4-5 days. We urge you to tune into this at the conscious level. As of now you will barely sense it, even if you are highly energetically sensitive. But keep attuning the self to it. ***This refined and magnificent energy is emitting outward from Planet Earth's core center. It is the epitome of consciousness and awareness.***

This is another reason why those who are excessively constricted may not choose to remain on Planet Earth very much longer. To them, these new vibrations would be so disturbing that they would be unable to handle them.

We sense a mental question, “*Surely those who are ‘evil’ and ‘impure’ be wiped out?*” Not at all. Some of them have very high vibrations. And these energies may then help them awaken to, and acknowledge, their own inherent light.

*Will this new energy affect the political situation worldwide?*

It will affect every aspect of Planet Earth: politics, business, science, the arts, technology and so on. It is going to bring about, over the course of 3-5 years, tremendous breakthroughs in all spheres. Expect to be amazed by the rapid changes that now happen around you.

(Smiling) These energies will also bring to light various what you have hoped for, for so long: natural cures for diseases like Cancer. This information will first erupt in pockets. Bit by bit, people will spread this knowledge. Of course the Pharma companies will attempt to suppress this knowledge, but humanity will win out.

So keep connecting with this new light. We cannot 'name' it, nor describe its colour and frequency; it is all-pervasive, and filled with indescribable hues and multiple vibrations. But it is yours to command. Open to it from now, and keep doing so; it requires your invitation and participation.

*Does this really have a vibration? Or does each person react to it according to their vibrations?*

It is so multi-vibrational that everyone will interact with it in a different way, in accordance with their personal frequencies and their capacity.

*I feel it does not really have a vibration.*

It has anti-vibration. From an earthly perspective, this is non-vibration. From a Universal perspective, it contains them all. Let us try and give you a simple earthly parallel. To create a traditional photograph, you need a negative. The negative is not the photograph you see, but it is what creates it.

*How do we attract this light? As it has no name, what do we call it?*

Just ask for it: as simple as that. You could call it "The New Light of Planet Earth" or "The New Consciousness of Planet Earth". But remember, ***to interact with it, you have to focus on the core center of the planet and draw it upward, through the soles of***

***your feet, all the way to the crown chakra.***

BLESSINGS FROM THE COSMIC MEHER.

You may wonder how this segment started with the Ashtaar Command and ended with the Cosmic Meher. That is because the two are working in perfect unison to facilitate this new planetary frequency.

A third Master energy is also involved in this process and contributes towards the upliftment of the human race is the Sai (Baba); in his Universal form, he prefers the title “Cosmic Illuminator”.

He is here to joyously inform all Lightworkers worldwide that they are now entering a new, magnificent phase. If they continue to touch their power and own their mastery, their powers will now leap ahead. Not by one or two steps; but by ten or twenty. Ride the crest of the energetic wave.

This is only being offered to Lightworkers. ***This may sound elitist to you; but it is not. It is so because all of you have earned it. It is your divine right.*** Lightworkers worldwide have spent years dedicating the self to personal growth and awareness, and to spreading knowledge and wisdom. Those who have not earned it are not being offered this opportunity. ***There is no favoritism here; it is divine justice.***

So ride the wave and skyrocket. ***Own your Mastery and believe in the self. That's the key.*** This leap will affect all areas of your lives: your public service, your personal work, your relationships, your family dynamics, your spiritual growth and so on.

The Cosmic Illuminator dedicates himself to Planet Earth and her evolutionary processes during the years 2018 to 2021. He has made Planet Earth his focal point, even though he works with countless Universal Societies. And Earth, with her changes, will also act as a catalyst to provoke others around her to shift and grow. She is an

energetic germinator.

How smart all of you are, to have chosen to incarnate on Earth and experience this stirring period! Yes, all of you wanted to contribute to this process of germination.

Use the powerful light in this room, generated by the Masters and by you, to bless all the names mentioned at the start of the meeting. Please also bless you homes, families and friends, your businesses and so on. Tremendous energy has been created in the room today. Don't waste it: it's yours. (Pause)

(Smiling) One last tidbit: expect concrete proof of the existence of Universal friends (ETs) by the end of this year.

BLESSINGS FROM THE COSMIC ILLUMINATOR.

A SPECIAL BLESSING TO THIS BEAUTIFUL GROUP FROM THE ENERGIES OF MOTHER MARY.
